Document Ref: POL-2025-V2.1 | Effective Date: January 1, 2025

SECTION 1: ORGANIZATIONAL MISSION & WORKING HOURS
Datheon Tech Solutions is a premier artificial intelligence research and consulting firm
specializing in enterprise LangChain agents, high-throughput RAG systems, and structured LLM extractior

1.1 Standard Working Hours:
- Official office hours are 9:30 AM to 6:30 PM Indian Standard Time (IST), Monday through Friday.
- Core synchronous team collaboration hours are 11:00 AM to 4:00 PM IST.
- All team members are expected to be reachable via Slack during core collaboration hours.

1.2 Annual Paid Time Off (PTO):
- Full-time engineers receive 24 paid vacation days annually, accrued monthly at 2 days per month.
- Employees receive 10 paid casual/medical sick leaves per calendar year.
- National and regional holidays are published in December for the subsequent calendar year.

SECTION 2: HYBRID WORK & EXPENSE REIMBURSEMENT POLICY

2.1 Hybrid Remote Work Model:
- Datheon operates on a flexible hybrid model allowing engineers to work remotely up to 3 days per week.
- Mandatory in-office collaboration days are Tuesday and Thursday for sprint planning and demos.
- Fully remote work arrangements require written approval from the Engineering Director.

2.2 Ergonomic Home Office Equipment Stipend:
- New full-time hires are eligible for a one-time home office tech stipend of $800 (or INR 65,000).
- Eligible expenses include ergonomic monitors, standing desk converters, noise-canceling headsets, and
- Receipts must be submitted through the Datheon HR Portal within 60 days of employment.

2.3 Business Travel & Meal Per Diem:
- Approved domestic travel flights must be booked in economy class.
- The maximum allowable daily meal per diem is $75 (or INR 4,500) per day.
- Itemized tax invoices must be submitted with expense claims for audit compliance.

SECTION 3: GENERATIVE AI SECURITY & INTELLECTUAL PROPERTY STANDARDS

3.1 Safe Handling of Client Proprietary Data:
- Engineers must never paste unredacted client intellectual property, PII, or credentials into public LLM por
- Enterprise zero-data-retention APIs (Google Cloud Vertex AI, Azure OpenAI, enterprise Gemini) are appr
- All documents indexed in vector databases (such as ChromaDB) must be purged upon project decommis

3.2 API Key Governance:
- API credentials (including GEMINI_API_KEY, OPENAI_API_KEY, and TAVILY_API_KEY) must strictly re
- Hardcoding secrets or checking .env files into GitHub repositories is a critical security violation.

3.3 Verification & Hallucination Mitigation:
- Any production LLM workflow must implement context grounding and output validation (e.g. Pydantic v2 s
- When a document Q&A assistant cannot find supporting facts in uploaded documents, it must explicitly st
  that the information was not found rather than hallucinating plausible answers.
